WeirAndSkimmerAccessories

Custom appearance at affordable pricing. Our weir assemblies for vacuum formed filter wells provide an economical option for enclosing your filter wells...even when you choose to customize.

- Wide weir door and cover are customizable for branding.
- Filter well accessories availability include 1-1/2" wall fitting, 2" wall fitting, chlorinator and cartridge plug.
- Weir dimensions are 20.125" wide by 14.75" high by 1.31" deep.
- Cover dimensions are 19.50 - 20.152" wide by 1.20 - 1.62" high by 9.50" deep.

Our filter and space-saving skimmer systems are designed for easy installation, are cosmetically more pleasing than standard hole designs, and are available at an affordable cost compared to other weir designs.

- Small diameter filter and low profile skimmer designs leave more room for users making them ideal for small spas
- Economical alternative to standard size filter and skimmer systems
- Installation is quick and easy
- Filter is easily accessed and removed for routine maintenance
- Skimmer available in light gray, silver, dark gray and custom colors to match your spa aesthetics
