COMPACT QUIET-FLO HEATED BLOWER

Balboa is rounding out its portfolio of heated bath blowers with the addition of the new Compact Quiet-Flo 600W model. All models have compact designs which allow for constrained space installations. Additionally, the Quiet-Flo's air intake is below the output so that the blower can be mounted against a wall without any concern for flow restrictions. The blower will work with any air or electronic control system and comes with a standard NEMA plug. Optional unionized connections and check valves are available.

FEATURES & BENEFITS

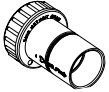

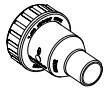

- 1 Compact Design
- 2 Small foot print
- 3 1 HP motor
- 4 115V/60Hz/11.3AMPS
- 5 Works with any control
